Focus and Team Advantage

Danna McKitrick's service teams generally include a mix of attorneys: some oriented in litigation and others in business transactions. You continually benefit from sound theory as well as the thoughtful consideration of cause and effect based on many years of practical experience. The number of areas of law and/or industries in which our attorneys practice is limited to enable deeper focus on factors pertinent to their respective areas. Lawyers' continuing education is always tailored to the legal skills and strengths necessary to deliver meaningful advice and cutting-edge ideas.

Within our industries of focus, a balance of proactive, comprehensive transactional representation and responsive, effective litigation is provided. Danna McKitrick provides fairly priced, top quality services for businesses and individuals alike. We pledge to provide the creativity and hard work necessary to anticipate and serve your needs.

Whether your legal needs are small or large, we commit to responsive service, a strong, sincere relationship, and pursuing favorable outcomes.
